BEVERAGE PACKAGE

AT COMESTIBLES A DRINK IS NOT JUST A DRINK.

The beverages that we have written reflect a selection of suggested wines, beers and non-alcoholic options at two different levels. The prices reflect a 4 and 6 hour event with an hourly rate thereafter.

Flexibility is the foundation of our business, so if the following suggestions do not suit, our wine list is extensive and alternatives can be discussed with your coordinator.

We will always provide you with Plumm polycarb glassware unless the Skipper is happy with us to use glassware.

Comestibles has a Special Facility liquor license, all staff hold a current and accredited Responsible Service of Alcohol Certificate (RSA) and there are a number of Approved Managers as part of the team.
